YOUR GLOBAL LOGISTICS PARTNER

WHO WE ARE

PSI Global Logistics is a fully licensed international freight forwarding and courier company operating out of the United States and focusing primarily on North America and Africa.

PSI offers smooth service and delivery of your consignments from all ports and airports originating in the United States, Nigeria, and the rest of the world. Our offices and agents are strategically placed around the world, and are available around-the-clock to make your delivery on time, every time.

Our commitment is to serve our customers and to provide and maintain a cost effective solution to their shipping needs without sacrificing or compromising quality. We recognize the importance of promoting efficient customer service backed by tested technologies and innovation and every member of our knowledgeable team undergoes rigorous leadership and operational training in order to make sure PSI provides the best customer service in the industry.

OUR MANAGEMENT

STANLEY EGBO is the co-founder and CEO of PSI Global Logistics. An experienced logistics professional, Mr. Egbo is well-regarded in the industry for his motivation, drive and expertise in the shipment of mission-critical loads. His strategic vision and affinity for technology has let him turn PSI Global Logistics into one of the cutting-edge logistics operators in the country.

ERNEST AGU is the co-founder and Executive Director and Vice-President of PSI Global Logistics. Mr. Agu is responsible for the operations of PSI and the management of PSI's 70+ employees. His commitment to exceptional customer service has transformed PSI into a preferred partner for companies in need for custom-tailored solutions.

MARIAMA CARR is the Regional Manager, Global Management of PSI Global Logistics. She is responsible for the executing the company's strategy and overseeing the growth in the North America region. Her expertise and resourcefulness guarantee optimal and creative solutions for even the most unique logistics projects.

FULL-SERVICE LOGISTICS

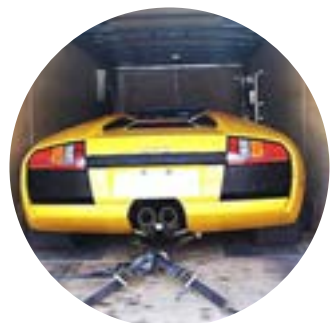

360 DEGREES OF SERVICE

PSI Global Logistics offers the full cycle of logistics and supply chain management services. Our 360-degree approach is the cornerstone of our success and is what differentiates us from our competitors. PSI Global Logistics is not a mere service provider – it is a true partner for your business.

AUTOMOTIVE SOLUTIONS

PSI FOR AUTOMOTIVE

PSI Global Logistics handles both the loading and offloading of containerized vehicles. With combined management experience exceeding 20 years, our customized methodology of safely loading and transporting numerous vehicles inside ocean containers is not only secure, but also reliable and efficient.

From pickup to delivery, PSI is committed to maintaining the highest level of excellence in containerized shipping of your automotive freight in each aspect of the logistics process. PSI is fully licensed by the Federal Maritime Commission, bonded, and insured. As time is critical to the logistics of offering these highly sophisticated services, we also provide detailed freight tracking intelligence, which has proven to exceed customer expectations for accuracy in delivery.

From Cars and Trucks, to High Heavies and Rolling Stock, Project Cargo can be shipped internationally with our award winning RORO and LOTO services for non-containerized automotive shipments. PSI partners with the best RORO vessels worldwide and can provide any and all solutions needed to ensure your shipment is a success.

CONSTRUCTION SOLUTIONS

CONSTRUCTION & AFRICA

Across the shipping industry, professionals agree that Africa has become a nucleus for the international shipping of heavy construction machinery. New and existing developments have created an increased demand for construction equipment in the region, allowing PSI to expand the international shipping services offered and ports of delivery. PSI can arrange for transport from United States ports, including New York, Baltimore, Charleston, Jacksonville, Galveston, to a range of West African ports.

Our Roll On, Roll Off, and Break Bulk shipping services are available whether you are shipping heavy-duty highway and construction trucks, excavators, bulldozers, motor graders, or Caterpillar heavy equipment, Komatsu construction equipment, and Mack trucks. Shipping to Africa has never been more safe and efficient!

SPECIALIZED SERVICES

Hauling: We pick-up and deliver your unit via flatbed, step deck, or trailers to the port.

International Compliance: We assist our customers with securing the proper credentials for heavy machinery transport compliance.

Pre-shipment Inspection: We arrange inspections for shipments destined for African countries where required.

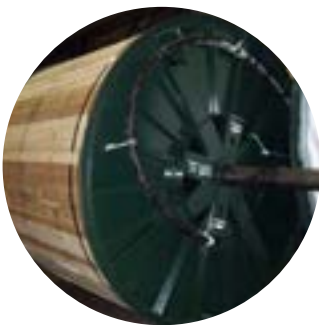

Fumigation: All shipments are decontaminated before transport to African countries where required.

Dismantling and Loading: High heavy construction equipment, including Break-bulk cargo (Bulldozer buckets, Excavator blades, Cabs, Crane booms) are broken down and packed safely into an ocean container.

Cleaning: Construction equipment must be free of dirt and operable prior to delivery. PSI Shipping is ready and available to assist your company with all its international shipping needs, and any concerns you may have.

In short - we are your global logistics partner!

OIL & GAS SOLUTIONS

YOUR OIL & GAS PARTNER

PSI Global Logistics recently expanded the international shipping services offered and the number of ports of delivery, allowing the transporting of Crude Oil cables, Caterpillar Rig engines, Drilling Bits, Container Freight trucking, Bulldozers, Cranes, and overweight break bulk cargo.

PSI continuously excels in transporting sensitive, prefabricated high dimensioned modules; refinery pressure vessels, dismantled rigs, water heaters, and a wide variety of heavy lift mode cargo for offshore plants. Whether constructing a land or water based drilling rig platform, shipping a variety of moving systems; Rig parts, drilling tools, surface well testing equipment, Drilling Rigs, Pump Jacks, Casing and Tubing, Sucker Rods, Mud Pumps, Rotary Tables, Hook Blocks, or Traveling Blocks, you can trust PSI to exceed your international shipping expectations. Granting PSI the pleasure of handling your shipping needs will result in the establishment of a firm, lasting relationship built on mutual trust and customer satisfaction.

PROCUREMENT & EXPEDITING

SAVING TIME

To minimize the wait time for time-sensitive orders, PSI Global Logistics can also engage in procurements and expediting of Oil & Gas machinery and equipment for our preferred clients. PSI sources and expedites materials to the specification of our clients.

PSI cultivates healthy, long lasting relationships with various partners in the Oil & Gas industry, which can assist us in managing the acquisition, handling, storage, transportation, and production of machinery for your special projects.

New and existing developments in West Africa have created an increased shipping demand in the region, allowing PSI to expand the international procurement and shipping services offered, as well as the ports of delivery. We can arrange for the transport of your shipment from several United States ports, which include New York, Baltimore, Charleston, Jacksonville, Galveston, to a range of international ports, including several in the West African region.

PROJECT CARGO

AIR CHARTERS

Certain projects, usually in Oil & Gas and Heavy Industries, require special equipment and heavy and bulky machinery. Over-size and inconceivable shipments will require charter expertise as finding the right aircraft or vessel to do the job is very essential. This is another area PSI Global Logistics excels. We have an extensive network of aircraft owners, vessel owners and heavy lift vessel owners.

Through our global network of air charter brokers and aircraft owners, our specialists guide you through the selection process to secure the right aircraft, and provide door-to-door services, which include load out and discharge supervision. For your oversize freight, time critical cargo, or global destinations that are not easily reached, PSI can arrange precise charter itineraries regardless of the nature of your business.

Our partners organize over 3,000 charter flights a year. We are perfectly geared up to provide quick, competitive quotes 24 hours a day. Our brokers are always available to find you the right aircraft for the job. All aircraft operators are licensed, insured, and are even trained to handle the transportation of hazardous materials. We are available 24/7 to provide complete knowledge of your cargo's status.

OCEAN CHARTERS

Expediting equipment requires innovative transport options only ocean vessel charters can offer. Through PSI's extensive professional network of owners and brokers, we locate the right mode of transport the first time, every time. From securing the vessel to on-site supervision at the port of discharge, we provide a truly hassle-free door-to-door chartering experience. Our methodology keeps PSI exceeding client expectations operationally and commercially.

PSI charters part and full vessels for a variety of project commodities shipped worldwide. Our operations staff identifies specific vessel requirements and negotiates booking terms and conditions to protect your interests and mitigate your risk. This practice supports our clients' goals of meeting contractual obligations. Securing appropriate space with an approved stow-plan authorizes PSI to perform the following activities:

- Obtain under deck stowage for required pieces.
- Conduct port and route surveys to ensure cargo is effectively handled to and from the vessel.
- Ensure vessels or ports are equipped with efficient lifting gear if required.
- Provide onsite representation at ports of loading and destination.

CASE STUDIES

MAKON ENGINEERING & TECHNICAL SERVICES LTD

PSI Global Logistics was contracted by Makon Engineering & Technical Services to conduct the transportation and delivery of over 900 Tons of Gas Compression Equipment for The Ughelli, Adibawa, and Utorugu Gas Projects in Nigeria. This project included inspection of materials in Calgary, Canada on the way to their final destination. Working with trucking companies to transport over 87 loads to Houston Texas, PSI Global Logistics managed the whole process, including the contracting and chartering of the appropriate vessel for this load and ultimately supervising the loading and departure.

TESTIMONIALS

NESTOIL PLC

"PSI is a leader in the logistics and freight forwarding business in the US. During our association with PSI Global Logistics, we have found them to be ethical and extremely responsive to client needs. Their strong management team is dedicated to providing time and resource saving solutions to complicated logistics tasks. We are proud to be associated with PSI and look forward to working with them into the future."

PEM OFFSHORE INC

"PEM Offshore has been doing business with PSI for over five years and they have always managed to meet/surpass our deadlines/expectations. Our Special projects that require special logistics skills has been well delivered by PSI. Our Rig Retrofit Project of last year with OANDO that cost over \$5 MM was coordinated, shipped and handled by PSI for PEM Offshore Inc., USA. THE 3516BHD Engines and Accessories was all air freighted in. All our OEM Shipments from all over the world get delivered promptly as well."

WELTEK LIMITED

"Right from the start, PSI impressed us with their efficient, professional manner - an approach that not only inspired confidence, but also generated the results and speed we were looking for. By partnering with PSI, we have been able to consistently improve our overall project delivery. Because of its years of experience and worldwide logistics expertise, PSI has been able to provide WELTEK with best in class express air shipment services. From their state of the art tracking system to their helpful, knowledgeable, friendly staff, our experience with PSI confirms to us that we've partnered with true future leaders in the global logistic services."

AJAMY OIL AND GAS LTD

"We are left with no option than to recommend a company we have known for almost 10 years from their modest beginning to a company that gives real-time information on goods, improving daily on efficiency and delivery."
